The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency bank "U" allows the user to store individual frequencies which are freely selectable in 25-kHz steps. Therefore these frequencies may not be intermodulation-free.

From 01 January 2013 in the UK, only 863 MHz - 865 MHz will be available. For more details contact [www.jfmg.co.uk](http://www.jfmg.co.uk)

Licences and licensing information can be obtained in the UK via JFMG at [www.jfmg.co.uk](http://www.jfmg.co.uk)

## Radio Microphone EW100/300/500 G3 Range A (516-558 MHz Ch26-Ch31)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U" (ew 100: bank "U", ew 300/ew 500: banks "U1"-"U6") allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

Licences and licensing information can be obtained in the UK via JFMG at [www.jfm.co.uk](http://www.jfm.co.uk)

## Radio Microphone EW100/300/500 G3 Range E (823-865 MHz Ch65-Ch70)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

Notes																					

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U" (ew 100: bank "U", ew 300/ew 500: banks "U1"-"U6") allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

From 01 January 2013 in the UK, only 863 MHz - 865 MHz is available. For more details contact [www.jfmg.co.uk](http://www.jfmg.co.uk)

Licences and licensing information can be obtained in the UK via JFMG at [www.jfmg.co.uk](http://www.jfmg.co.uk)

### Radio Microphone 2000 BW (626-698 MHz Ch40-Ch49)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

Radio Microphone 2000 CW (718-790 MHz Ch52-Ch60)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

Summary table showing frequency ranges for channels CH 52 to CH 60, grouped into banks 1-6.

Main table listing 64 frequency channels (1-64) across 20 banks (Bank 1 to Bank 20) with specific frequency values.

Table with 21 columns: Country Usergroup Notes, UK Coordinated Site Specific Licence Required, and geographical restrictions apply.

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U1"-"U6" allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

Licences and licensing information can be obtained in the UK via JFMG at www.jfmg.co.uk

Radio Microphone 2000 GW (558-626 MHz Ch32-Ch40)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

Summary table showing frequency bands: 558-566 CH 32, 566-574 CH 33, 574-582 CH 34, 582-590 CH 35, 590-598 CH 36, 598-606 CH 37, 606-614 CH 38, 614-622 CH 39, 622-630 CH 40

Main frequency table with 20 columns (Bank 1-20) and 64 rows (1-64) of frequency values.

Country Usergroup Notes table with 20 columns and 1 row, detailing licensing requirements for each bank.

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U1"-"U6" allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

From 01 January 2013 in the UK, frequencies between 558 - 606 MHz may be available on a Fixed Site Coordinated Licence, subject to six months rolling notice. In the UK, frequencies between 606 MHz - 614 MHz require a Shared Ch.38 licence. In the UK, frequencies between 614 MHz - 626 MHz require a Fixed Site Coordinated Licence. For more details contact www.jfmg.co.uk

Licences and licensing information can be obtained in the UK via JFMG at www.jfmg.co.uk

### Radio Microphone 2000 GBW (606-678 MHz Ch38-Ch46)

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U1"-"U6" allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

From 01 January 2013 in the UK, frequencies between 550 - 606 MHz may be available on a Fixed Site Coordinated Licence, subject to six months rolling notice. In the UK, frequencies between 606 MHz - 614 MHz require a Shared Ch.38 licence. In the UK, frequencies between 614 MHz - 638 MHz require a Fixed Site Coordinated Licence. For more details contact [www.jfmg.co.uk](http://www.jfmg.co.uk)

Licences and licensing information can be obtained in the UK via JFMG at [www.jfmg.co.uk](http://www.jfmg.co.uk)

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency banks "U1"- "U6" allow the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

In the UK, frequencies between 606 MHz - 614 MHz require a Shared Ch.38 licence. In the UK, frequencies between 614 MHz - 790 MHz require a Fixed Site Coordinated Licence. For more details contact [www.jfmg.co.uk](http://www.jfmg.co.uk)

Licences and licensing information can be obtained in the UK via JFMG at [www.jfmg.co.uk](http://www.jfmg.co.uk)

# Radio Microphone EM3732 MK II Range P (776-960 MHz Ch59-Ch70)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS

The frequency presets within any one frequency bank are intermodulation-free. These frequencies cannot be changed.

The frequency bank U allows the user to store individual frequencies which are freely selectable in 25-kHz steps. It might be that these frequencies are not intermodulation-free.

In the UK frequencies in the range 776-790 MHz require a Fixed Site Coordinated Licence. 863-865 MHz is licence exempt.

Licences and licensing information can be obtained in the UK via JFMG at [www.jfmg.co.uk](http://www.jfmg.co.uk)

## Radio Microphone SK 5212 & SKM 5200 Range N-GB (606-790 MHz Ch38-Ch61)

The frequency presets within any one frequency BANK are intermodulation-free. Do not mix frequencies between BANKS
